## WIRE Binding Coils

### 3:1 Pitch Wire - 34 Loop A4

This type of binding is a unique system of permanent binding, which has no sharp edges, can lie flat and stays flat when opened. This particular style of binding is strong, durable, functional and colourful. It is ideal for brochures, calendars, books and catalogues. Twin Loop Binding is often referred to as Double Loop Binding, Wiro Binding and Spiral -O binding.

Size mm	Inches Length	Binding Capacity
