

The Print-Rite Advantage

Why Print-Rite?

Print-Rite is one of the largest independent manufacturers and remanufacturers of ink and toner cartridges in the world. They make in excess of 1 million cartridges monthly using the highest quality components sourced from leading suppliers.

The Print-Rite range of compatible and remanufactured cartridges offers a significant wholesale price advantage over the OEM equivalent.

- A compatible or remanufactured option to suit most brands.
- Value packs and combo packs available.
- Supported by the Dynamic Supplies Warranty.
- Manufactured by ISO 9001 / ISO 14001 plant.
- Save money compared to the originals.

What is a remanufactured cartridge?

A remanufactured cartridge is a used OEM cartridge which has been inspected and fully reconditioned for re-use.

What is a compatible cartridge?

A compatible cartridge is a new cartridge that has not been manufactured by the original printer manufacturer (OEM). Compatible cartridges are designed to be used in place of the OEM cartridge.

Need help finding a Print-Rite to suit?

To help find the right Print-Rite for the job, why not take advantage of our online compatibility search...
